

VAASA GAS EXCHANGE

THURSDAY 21 MARCH 2019 ■ 9:00-16:00
VAASA CITY HALL, SENAATINKATU 1

WELCOME TO MEET ACTORS FROM TODAY'S HOTTEST INDUSTRY

The Vaasa Gas Exchange (VGE) is an international networking event for energy experts, focusing on natural gas and biogas in all forms for power generation, transportation and shipping. VGE will be held for the fourth time in 2019. **VGE is the biggest networking event for the gas industry in the Nordics.**

VGE is part of the Vaasa EnergyWeek event which will be held for the eighth time in 2019. **EnergyWeek website** is www.energyweek.fi and **VGE website** is www.energyweek.fi/vaasa-gas-exchange.

FIND OUT WHAT POSSIBILITIES THE BOOMING GAS MARKET OFFERS

VGE is held in the rapidly growing Nordic gas cluster. The cluster has many active companies and actors working together with innovative projects such as a new LNG terminal, gas fueling stations and an energy laboratory for education and industry.

Over 90 exhibitors have registered for 2019. At VGE, you will have the opportunity to **meet other actors, driving forces and potential partners** from Finland and abroad. During the event visitors can find out what possibilities, challenges and alternatives the gas market offers currently and in the near future.

VGE is organised by University of Vaasa in partnership with **Gasum, Merinova, Novia University of Applied Sciences, Stormossen, VAMK University of Applied Sciences, VASEK, Wärtsilä** and the **Åbo Akademi University.**

Register in advance at **WWW.ENERGYWEEK.FI** or at the event. **Participation is free.**

10:00-15:05 Gas Exchange Seminar

GAS EXCHANGE SEMINAR

Theme: **LNG & LBG – the Road to a Renewable Future**

Chairman **Lasse Pohjala**, VASEK

The seminar will showcase interesting examples of regional and national natural gas and biogas users. The audience will learn more about how the use of these fuels is enhancing both business and operations. The distribution of natural gas and biogas in the Nordic countries is another central theme of the seminar, showing how growing availability helps interested users in switching to gas fuel. The seminar will also discuss the future for renewable fuels and how natural gas and biogas can be a vital part of the puzzle.
