

Opening of EnergyWeek

Tuesday 12 March | 09:00 - 10:30
Music Hall | Free of charge

Welcome to the international Vaasa EnergyWeek!

The opening ceremony for EnergyWeek 2024 gives us an opportunity to together set the goals and framework for this year's event. When we talk about a branch this significant, it is important to keep our vision clear, set the bar high and together find the solutions to use when facing the most important challenges of our time, fighting the climate change, finding sustainable solutions and creating smart cities and regions.

The interesting speeches are followed by a panel discussion.

This year, we are focusing on examples of how Energy efficiency is a business requirement to remain competitive.
