

Social Engineering

Thursday 14 March | 11:00 - 12:30
Music Hall

This event aims to elevate awareness about social engineering threats in the energy industry, targeting company and thought leaders in the sector.

The seminar will kick off with a brief introduction by **Robert Granholm** of Abero Technologies Oy, followed by insightful presentations from keynote speakers **Alexander Dove**, **David Jacoby**, and **Zachary Korman**. These sessions will explore various aspects of social hacking threats to the energy sector.

A panel discussion moderated by **Emma Strömbäck-Mård**, titled “The Underestimated Threat: Social Hacking in the Energy Sector,” will encourage dialogue on the challenges and strategies for combating social engineering. The event will conclude with closing remarks from Abero, highlighting the key points discussed and expressing gratitude to participants.

This seminar is crucial for leaders in the energy sector seeking to understand and mitigate the risks posed by social hacking.
