

Wärtsilä WISE Launch Event

Thursday 14 March | 14:30 - 15:30
Meeting Hall

Wärtsilä, a global leader in innovative technologies and lifecycle solutions for the marine and energy markets, is thrilled to announce and launch an extraordinary ecosystem project called WISE – Wide & Intelligent Sustainable Energy.

This five-year initiative brings together over 200 Finnish companies, industrial organizations, research institutes, and universities, all united in their mission to develop innovative clean energy concepts and transforming the Finnish energy sector into a global leader in energy innovation.

The WISE project aims to create a scalable ecosystem and introduce secure and autonomous zero-emission balancing power generation. This is a significant milestone in enabling the energy transition towards a fully decarbonized future.

Welcome to the WISE Launch Event to explore the ambitious goals and visions behind WISE, gain insights in Wärtsilä's research and development focus areas, and discover the ecosystem opportunities that lie ahead.

Join us to learn if you could be part of this collaboration and help shape a sustainable and autonomous energy future!
