Assume Breach

Tuesday 18 March | 12:00 - 13:30
Art Hall

In today's evolving threat landscape, adopting an "Assume Breach" mindset is no longer optional—it's a necessity. This seminar, hosted by Abero Technologies Oy, challenges organizations to rethink their approach to cybersecurity by planning as though breaches have already occurred.

The seminar will begin with a brief introduction by **Robert Granholm** of Abero Technologies Oy, emphasizing the critical need to adopt an *"Assume Breach"* mindset in today's evolving threat landscape. This approach challenges organizations to plan as though breaches have already occurred, shifting focus from prevention alone to proactive detection, response, and resilience.

Keynote speakers from **Abero**, **Helen** and **Aftra** will deliver insightful presentations on why traditional security measures are no longer enough and how the energy sector must embrace this new reality. Topics will include real-

world breach scenarios, the vulnerabilities of internal systems, and strategies for building resilience from within.

A panel discussion, moderated by **Ben Bergman**, titled *"Assume Breach: Building Resilience in a Compromised World"* will explore how leaders can mitigate risks, detect breaches early, and ensure business continuity in the face of inevitable cyber threats.

The event will conclude with closing remarks from Abero Technologies, summarizing key takeaways and reinforcing why adopting an *Assume Breach* mindset is no longer optional but a necessity for safeguarding critical infrastructure.

This seminar is vital for leaders in the energy sector who must rethink cybersecurity, recognizing that breaches are not a matter of *if* but *when*, and that resilience starts from within.

Assume Breach: Building Resilience in a Compromised World

Moderator for the panel discussion
Ben Bergman
COO
Abero Technologies Oy

12:00 - 12:05

Opening Segment – Introduction to Assume Breach by Robert Granholm of Abero Technologies Oy.

**Robert Granholm**
CEO Abero Technologies Oy
Abero Technologies Oy

12:05 - 12:25

Don't leave the door open – Traditional IT vs. the Hacker Mindset

Stefanía Berndsen
CCO @ Aftra | SaaS sales | Cyber Security | MSc.Diversity & Change Management |
Aftra

Samúel Arnar Hafsteinsson
Software Engineer & Ethical Hacker
Aftra

12:25 - 12:45

Physical Security: Key Considerations for a Safer Future

Mats Fagerström

Chief Security Officer – CSO at Helen Ltd

12:45 - 13:05

Understanding the Assume Breach Mindset

Emma Strömbäck-Mård

Support Team Leader & Key Account Manager
Abero Technologies Oy

13:05 - 13:25

Pandel Discussion

Moderator: Ben Bergman, COO, Abero Technologies Oy
Topic: Assume Breach
Optional Q&A Session: Attendees can engage with the panelists.

Emma Strömbäck-Mård
Support Team Leader & Key Account Manager
